Ask for Polarized Technology

standard non-polarized sun lens

with Xperio® polarized lens

Xperio®

Xperio® polarized increases visual comfort and glare protection

Vision first. Color second. Style always.

Ask your optician about the best Essilor® sun lenses for you

1. Not all sunglasses are compatible with prescription lenses. The compatibility of sunglasses with prescription lenses depends on prescription needs, sunglasses shapes, and fitting parameters. The list of available colors may vary depending on the lens design, the lens substrates, and the lens coatings. Please refer to your eye care professional for more information.
2. Essilor® U&A Sun Segmentation x IPSOS 2020. [N=10000]
3. U&A Vision Care 2025 x June Marketing. [N=1001]

*Based on an average recommendation with quantitative research conducted in 8 countries (Brazil, Canada, China, France, India, Italy, UK, and the US) among a representative sample of 1560 Eye Care Professionals: 1047 opticians, 513 optometrists, between January and June 2022. These 8 countries represent: 63% of total world in lens volume.
